## EXTENSIONS

Eyelash extensions are a great way to lengthen and thicken your natural eyelashes.

With proper care, they will last until your natural lash sheds as it normally would. Most people need refills every 2-3 weeks to maintain their look.

## PROCESS

They are lightweight, synthetic lashes carefully attached, one at a time, to your individual natural lashes giving you length, fullness, and curl.

## KERATIN LASH LIFT + TINT

A Keratin Lash Lift & Tint brings your natural lashes to their full potential!

It is a great alternative to eyelash extensions, as it requires very little maintenance and has lasting results. The combination of these services is highly recommended!

## PROCESS

A lash lift is a semi-permanent treatment that curls & lifts lashes from the root to tip, lasting about 6-8 weeks.

A lash tint darkens your lashes to make them appear naturally thicker and longer. We finish the service with a nourishing Keratin treatment to protect your lashes and achieve longer lasting results!

## PRICE
